FORWARD

With great pride the Nevada Department of Public Safety, Records, Communications and Compliance Division's Sexual Assault Forensic Evidence (SAFE) Kit Program presents the bi-annual report of *SAFE Kit Reporting in Nevada* for the reporting period of December 1, 2025, through May 31, 2026.

Without the efforts of Nevada's contributing agencies, this publication would not be possible. We would like to extend our sincere thanks and appreciation to each agency for their dedication and commitment in utilizing the SAFE Kit tracking program that helped us create this SAFE Kit report.

Thank you to the SAFE Kit Program staff within the Department of Public Safety, Records, Communications and Compliance Division for their dedication to compiling and publishing the statistics for this year's *SAFE Kit Reporting in Nevada*.

If we can be of assistance, please contact the SAFE Kit Program at 775-684-6262. This publication is available online at:
<https://rccd.nv.gov/Services/SAFEkit/>

Respectfully,

A handwritten signature in blue ink that reads "Erica S. Llamas".

Erica Souza-Llamas
Division Administrator

Appreciation for Support

2026 Reporting Agencies

The SAFE Kit program is responsible for providing a report on the medical facilities, the law enforcement agencies and the labs that work together in the Track-Kit system. The program was established with the support of all these stakeholders on June 17, 2019 (NRS 200.3788).

Although responsibility for actual development and execution of the program was delegated to the Nevada Department of Public Safety, the individuals at the municipal, county and state levels who submit the raw data are the entities ultimately critical to its viability and success. Accordingly, we recognize the following dedicated people. Firstly, RCCD would like to thank the Office of Attorney General for their dedicated efforts in the planning and implementation phase of this program and for their ongoing support. OAG acquired the grant to establish this program and they collaborated with RCCD to implement this program. Currently, the program is fully transitioned to RCCD.

NRS 200.3788

The reporting of Sexual Assault Forensic Evidence Kit Tracking presented here is collected per the guidelines set forth in Nevada Revised Statute 200.3788.

NRS 200.3788 Statewide program to track sexual assault forensic evidence kits: Requirements; annual report; participation; immunity from civil liability.

1. A statewide program to track sexual assault forensic evidence kits must be established in this State. The Attorney General shall, pursuant to the recommendation of the Committee on Domestic Violence and Sexual Assault appointed pursuant to NRS 228.470, designate a department or division of the Executive Department of State Government to establish the program. The designated department or division may contract with any appropriate public or private agency, organization or institution to carry out the provisions of this section.

2. The program to track sexual assault forensic evidence kits must:

(a) Track the location and status of sexual assault forensic evidence kits, including, without limitation, the initial forensic medical examination, receipt by a law enforcement agency and receipt and genetic marker analysis at a forensic laboratory.

(b) Allow providers of health care who perform forensic medical examinations, law enforcement agencies, prosecutors, forensic laboratories and any other entities having sexual assault forensic evidence kits in their custody to track the status and location of sexual assault forensic evidence kits.

(c) Allow a victim of sexual assault to anonymously track or receive, by telephone or on an Internet website, updates regarding the status and location of his or her sexual assault forensic evidence kit.

3. The department or division designated pursuant to subsection 1 shall, on or before January 1 and July 1 of each year, submit to the Governor and the Director of the Legislative Counsel Bureau for transmittal to the Joint Interim Standing Committee on the Judiciary and post on the Internet website maintained by the department or division a report concerning the statewide program to track sexual assault forensic evidence kits. The report must include:

(a) The number of sexual assault forensic evidence kits in the program in each county.

(b) The number of sexual assault forensic evidence kits for which genetic marker analysis has been completed for each county for the last 6 months.

(c) The number of sexual assault forensic evidence kits added to the program in each county during the last 6 months.

NRS 200.3788 (contd.)

- (d) The number of sexual assault forensic evidence kits for which genetic marker analysis has been requested but not completed for each county.
- (e) For this State as a whole and each county, the average and median time between a forensic medical examination and receipt of a sexual assault forensic evidence kit by a forensic laboratory for genetic marker analysis, overall and for the last 6 months.
- (f) For this State as a whole and each county, the average and median time between receipt of a sexual assault forensic evidence kit by a forensic laboratory and genetic marker analysis, overall and for the last 6 months.
- (g) The number of sexual assault forensic evidence kits in each county awaiting genetic marker analysis for more than 1 year and 6 months after forensic medical examination.
4. Each law enforcement agency, prosecutor, forensic laboratory and provider of health care who performs forensic medical examinations in this State shall participate in the statewide program to track sexual assault forensic evidence kits for the purpose of tracking the status of any sexual assault forensic evidence kits in the custody of the agency, prosecutor, laboratory or provider, or a third party under contract with such agency, prosecutor, laboratory or provider.
5. Any agency or person who acts pursuant to this section in good faith and without gross negligence is immune from civil liability for those acts.
6. The department or division designated pursuant to subsection 1 may apply for and accept any gift, donation, bequest, grant or other source of money to carry out the provisions of this section.

(Added to NRS by 2017, 2886; A 2019, 2850; 2021, 2517; 2025, 542)

SAFE Kit Program

Page intentionally left blank

Introduction to SAFE Kit

The Sexual Assault Forensic Evidence Kit (SAFE Kit) Tracking and Reporting Program is a nationwide cooperative effort of many medical facilities, law enforcement agencies and labs joining forces to track a sexual assault kit across a state. The monthly contributions to Nevada's current program, with over 15 medical facilities, 40 local law enforcement agencies reporting, 7 prosecutors and 2 labs represent a solid beginning to establishing an effective statewide tracking system. We also invite non-participating agencies in Nevada to join their peers in this effort to provide comprehensive tracking in the state.

Inquiries concerning SAFE Kit Program may be directed to:

**Department of Public Safety
Records, Communications and Compliance Division
SAFE Kit Program
333 West Nye Lane Suite 100
Carson City, NV 89706
(775) 684-6262**

The purpose of the Track -Kit program is to establish a procedure for accessing, tracking, and reporting the status of a SAFE Kit. The web-based system (Track- Kit) will allow providers of health care who perform forensic medical examinations, law enforcement agencies, prosecutors, forensic laboratories, and any other entities having SAFE Kits in their custody to track the status and location of the kits. It will also allow the survivor to anonymously track and/or receive updates on their kit.

Track -Kit System

Purpose of Tracking Sexual Assault Forensic Evidence Kits

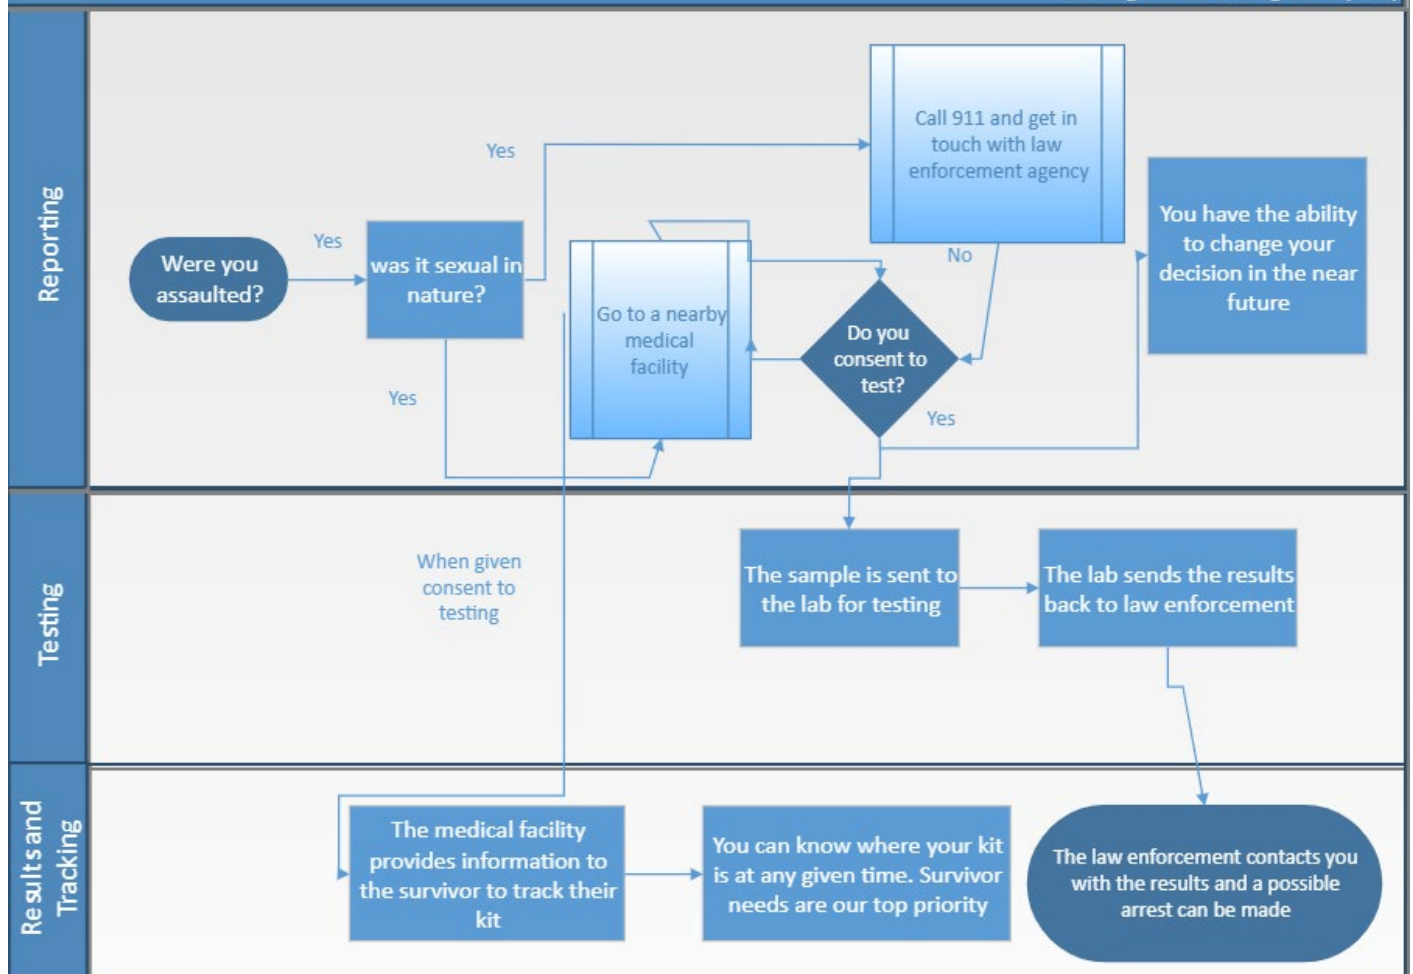

- Track the location and status of the sexual assault kits throughout the criminal justice process.
- Allow the policy center, medical facilities performing the sexual assault forensic examinations, law enforcement agencies in Nevada, the prosecutors, and the laboratories processing the kits to update and track the status and location of sexual assault kits.
- Allow survivors of sexual assault kits to anonymously track and receive updates regarding the status of their sexual assault kits.
- Ensure minimum to no backlog of sexual assault kits and the offenders brought to justice with the important piece of evidence in any sexual assault case.

2026 Bi - Annual Reports

SAFE Kit report is a bi-annual report which will be published every July 1st and January 1st.

The reporting period for the current report on July 1, 2026, is from December 1, 2025, to May 31, 2026.

The reporting period for the future report on January 1, 2027, is from June 1, 2026, to November 30, 2026.

Report Run Date: June 1, 2026.

Admin Overview

Sexual Assault Kit Totals:

SAKS Collected without Consent for Forensic Testing	194
SAKS Collected and Discarded	1
Anonymous SAKs Collected	0
SAKs Collected	5760
SAKs Collected with Blood	0
SAKs Collected with Urine	0

Report Legend

Report Legend

Field	Description
SAKS Collected without Consent for Forensic Testing	The total number of kits that have been collected where the survivor has not provided consent for forensic testing.
SAKS Collected without Consent for Forensic Testing and Discarded	The total number of kits that have been collected AND discarded where the survivor has not provided consent for forensic testing.
SAKS Collected with Consent for Forensic Testing	The total number of kits that have been collected where the survivor has provided consent for forensic testing.
SAKS Pending Analysis	The total number of kits where the survivor provided consent for forensic testing AND does not have a lab complete date. Includes all kits that are in transit to lab or have been received at lab.
SAKS Analyzed	The total number of kits where the survivor provided consent for forensic testing AND has a lab complete date. Kits are also filtered by lab complete date for the reporting period.
SAKS Destroyed After Analysis	The total number of kits that have been destroyed by either LEA or lab after getting a lab complete date.
Total SAKS in the System	The total number of collected kits, including those that have been discarded. Does not include kits in inventory/uncollected or residing at distributor.
SAKS Analysis Backlog	The total number of kits that are in pending analysis for longer than the number of days specified in the 'Backlog Days 1' and 'Backlog Days 2' fields of this report's parameters.
Number of Days from Release to Receipt in Lab	How many days the LEA takes to get kit to lab.
Number of Days to Complete Forensic Analysis	How many days a lab takes to process a kit.
Average and median time between a forensic medical examination (Collection Date) and receipt of a SAK (Lab Receipt Date) by lab for genetic marker analysis overall	The average time and median time calculations between collection date and lab receive date for kits where the survivor provided consent for forensic testing.
Average and median time between receipt of a SAK by lab (Lab Receipt Date) and genetic marker analysis (Lab Complete Date) overall	The average and median time calculations between lab receive date and lab complete date for kits where the survivor provided consent for forensic testing.

CAVEAT : Breakdowns between portal types may not add up. For example, if a kit bypasses medical facility and LEA enters kit:

- When generating breakdown report by LEA, the kit will be included as part of the assigned LEA's counts.
- When generating breakdown report by MF, the kit will not be included in any MF count because it hasn't been assigned an MF yet.

This concludes our publication. These reports will be published biannually. Once on or before July 1st for December to May timeframe and once on or before January 1st for June to November timeframe. It will reflect data from the last 6 months.

Thank you for taking the time to read the SAFE Kit Report.
